Peking, June 21.—The Belgian minister, M. Maurice Poostens despatched a messenger to Siam-Kial with instructions to verify the report of the massacre of four Belgian missionaries. The paper also says it is believed at the British foreign office that the formal act of surrender has already occurred.

White Will Not Resign.

Berlin, June 21.—Replying to an inquiry regarding a report published in the United States that he was to resign in December, United States Ambassador White wrote personally as follows: "I am leaving my present house simply because it has been sold to the government of Baden, and I am looking for another house. Are the Campers on the Border of the Reservations in Oklahoma.

Kansas City, June 21.—Thousands of people, men women and children, camping on the border of the Kiowa-Comanche-Apache reservations in Oklahoma, awaiting the opening of that land to settlement, are in destitute circumstances, according to Dr. J. J. McKenna, who has just returned from the scene. Twenty thousand men, women and children are massed on the border and half of them are utterly destitute, said Dr. McKenna. Only a small percentage have even tents to sleep in, but huddle under wagons and trees. At least 5,000 of them have been there a year and a half. They went with possibly \$200 and have made nothing since they arrived. simply waiting—waiting. There are hundreds of desperadoes on the border who have picked out claims and will not scruple to kill the successful ones in case they have a lottery.

A Mighty Meteor.

Tucson, A. T., June 21.—The largest meteor ever seen in this part of the country fell between the pueblos of Los Molinas and Altar, in Sonora, Mexico, on June 11. Although the sun was high, the meteor illuminated the sky and seemed to have burst at the horizon. El Progresso, Spanish paper, received in Tucson, contains an article describing the shock at Altar and the terror of the people when the meteor fell. The people thought the shock was an earthquake. An exploring party will search for the place where the meteor fell.

President of Lake Shore.

New York, June 21.—The directors of several of the Vanderbilt railroads met at the Grand Central depot. The most important action taken at any of the meetings was the re-election of William H. Newman as president of the Lake Shore and Michigan Southern Railway company, and the election of W. C. Brown, late general manager of the Chicago, Burlington and Quincy as additional vice president and general manager of both the Lake Shore and Michigan Southern and the Lake Erie and Western railroads.

Alleged Lynchers Indicted.

Alturas, Cal., June 21.—The grand jury of Modoc county, which has been investigating the lynching on May 30, of Calvin Hall, his three sons and Daniel Yantis, for alleged thefts, has returned three indictments for murder. Robert Leventon, Isom Eades and James W. Brown are the persons named. It is understood that evidence was brought out by the investigation showing that these three men were the principal participants in the events leading up to the wholesale lynching.

Broom Combine.

Urbana, O., June 21.—The Chicago Broom company of Chicago, and the Southwestern Broom company of Evansville, Ind., are said to be the promoters of a combination to include all the broom manufacturers and the broom corn product in the United States. Cailles will surrender Monday, after which he is expected to assist in bringing in Malvar, who in reality is his superior officer.

The announcement just made by Washington and cabled here that civil government will be established in the Philippines islands July 1, that Judge William Taft will be designated civil governor, that he will remain head of the Philippine commission, and that the commission will continue, meaning the establishment of a combination of civil and military government, is satisfactory to the members of the Philippine commission. Under the circumstances they believe it is politically wise to fulfill the expectations and aspirations of the natives on that date providing that this is done without causing liability or a sacrifice of the customs revenues.

Wood on the Situation.

Washington, June 21.—Secretary Root has received a report from Governor General Wood concerning affairs in Cuba, in which the governor says that the action of the constitutional convention in accepting the Platt amendment as passed by congress is received with general satisfaction throughout the island. The great difficulty which is now contended with in Cuba is that relating to commercial affairs and the necessity of better markets for Cuban products without the tariff restrictions in the United States. Nothing can be done, however, until the Cuban government is formed, when a reciprocity arrangement may be made.

Civil Government in Philippines.

Washington, June 21.—Secretary Root issued the order of the president establishing civil government in the Philippines. The order relieves the military governor of Philippines from the performance of civil duties on and after July 4, but declares that his authority will be exercised as heretofore in those districts in which the insurrection still exists. Mr. William H. Taft, president of the Philippine commission, is appointed civil governor and will exercise executive authority in all civil affairs in the government of the Philippines heretofore exercised in such affairs by the military governor.

Relics of Benedict Arnold.

Burlington, Vt., June 21.—J. G. Falcon, a diver, made the greatest find of relics ever known on Lake Champlain. He visited the spot where the schooner Royal Savage, commanded by General Benedict Arnold, was sunk in 1776 by the British. He secured three gun carriages and about 30 cannon balls and shot. The relics were discovered in about 30 feet of water. The carriages are made of wood and iron, the former being now petrified. Further investigation, it is thought, may lead to finding the private papers of Benedict Arnold, which were lost on the boat.

Mortgaged Property in Cuba.

Washington, June 21.—Reports of distress continue to reach Washington from debtors in Cuba. Governor General Wood has announced that all classes of creditors are at liberty to take action and enforce the collection of mortgage credits on all kind of property. Mortgages on property in Cuba amount to \$208,000,000, \$100,000,000 of which is on city real estate and the remainder on rural property. TRAIL LOST,

But the Hunt for the Mexicans Has Not Been Abandoned.

Dallas, Tex., June 21.—A long distance telephone message from San Antonio states that the trail of the Mexican murderers of Sheriffs Morris and Glover has been practically lost, but the man hunt has not been abandoned. The parties directing the chase have only the faintest hope of success. Sheriff Van of Kerr county, wired to San Antonio that he and his posse were worn out, their horses broken down and that they have had to abandon the pursuit. A fresh posse will take the place of Sheriff Van's force at Enecl.

Not the Men Wanted.

Gonzales, Texas, June 21.—A telegram was received here from Sandiego that the Mexican captured and the one killed by the rangers at that place were not the men wanted in this county for the murder of Sheriff Glover. Cortez may be the one who escaped, and the men who killed the sheriff may yet be in this locality. The report has gone out that several Mexicans in this county have been killed and one hanged to avenge the death of Sheriff Glover. This report is not true.

New Airship.

Chicago, June 21.—In Windsor park, a company of Pittsburg men, headed by John Allen, is building an airship. The part of the airship which is expected to cause it to rise is shaped like a fish. This will be made of silk and contain numerous small bags filled with gas, which is to be generated in the car for passengers. On top of the fish-shaped body will be other small bags containing a reservoir of gas in case of accident. The fish will be about 40 feet long. Below will be an aluminum structure in which is a shaft attached to a propeller. This propeller is to be operated by electricity, generated in the passenger car. An aluminum car will hang just below the propeller and will have a seating capacity of 30 people. The propeller is to be capable of making 2,500 revolutions per minute, producing a speed of near 75 miles an hour.

Perpetual Ownership.

Nashville, June 21.—Chancellor Cook has decided that the Nashville railway has a perpetual ownership in the streets of Nashville. Suits were instituted to obtain a revocation of the charter of the integral lines composing the Nashville railway on the ground that the Nashville railway, which succeeded the United Electric railway under foreclosure, had never obtained the consent of the city to a transfer of the street franchise as required by law. The chancellor held that the consent of the city was not essential.

Bought by the L. & N.

Montgomery, Ala., June 21.—The Louisville and Nashville has bought the Birmingham, Selma and New Orleans railroad, which operates between Selma and Thomaston, and will take charge July 1. Colonel F. M. Abbott will remain president of the road under the new ownership.

BARKER FOUND GUILTY

Jury Returns a Verdict in the Famous Jersey City Case.

DEFENSE GIVES NOTICE OF APPEAL.

Testimony Concluded in the Trial of Jessie Morrison For the Murder of Mrs. Olin Castle. Arguments Next.

New York, June 21.—The jury in the Barker case at Jersey City returned a verdict of guilty of attempt to kill the Rev. John Keller. Sentence was postponed until next Thursday and Barker was taken back to jail. Mr. Van Winkle, his counsel, gave notice of appeal, and Judge Blair said that bail would be fixed at \$10,000.

At the close of the trial the Rev. Mr. Keller, through his attorney, gave out the following statement: "I have learned of the publication in several newspapers of the statement of Mrs. Barker as to an alleged outrage by me upon her. It is false. I never outraged Mrs. Barker. I now understand the rules of evidence, however, would not permit my denial under oath on the trial just concluded."

Jessie Morrison's Trial.

Eldorado, Kan., June 21.—Jessie Morrison's defense in her second trial for the murder of Mrs. Olin Castle was closed at noon. The case was then postponed until Monday morning. Arguments will begin Monday, and will consume nearly three more days. The court finally admitted as evidence the clothing worn by Jessie Morrison on the day that she made the fatal visit to the Castle home. In rebuttal the state introduced two witnesses in an effort to impeach the testimony of the accused woman. These were Rev. O. H. Stull, who was pastor of the Baptist church here at that time, and W. J. Scott, a young lawyer of Kansas City. The statements of these witnesses contradict the testimony of Miss Morrison.

Politicians Favored Strikers.

Washington, June 21.—The industrial commission has issued the eighth volume of its reports of testimony. This volume deals exclusively with the labor disputes in Chicago in 1900. The commission makes no recommendation, but prints a summary of the testimony in the course of which it says: "It was claimed by several of the witnesses not only that policemen themselves were prejudiced in favor of the strikers, but that the higher city authorities leaned the same way. They asserted that the police had their instructions not to interfere except in case of absolute necessity and several specific instances were cited to show that this was the case. These witnesses held that strikes in Chicago have often been especially numerous just before elections and that both parties have been disposed to make political capital out of labor difficulties."

Charged With Cattle Stealing.

Billings, Mont., June 21.—Samuel Garven was arrested by federal authorities charged with complicity in stealing \$18,000 worth of cattle from the Creek Indians on which charge Robert Lee is now being tried in the United States court here. A WESTERN financier declares that within a few years the great railroad syndicates will sell their properties to the United States Government for \$10,000,000 and that a string of banks controlled by the same interests will be included to finance the deal.

Well, as these big millionaires are running the Government these days, they could pocket the \$10,000,000 under the scheme and still run the roads. It's a great scheme.

REV. BIVEN'S SIDE

of the Account of That Trouble at Nicholasville—Explains Why He Kicked Jacobs Down Stairs.

NICHOLASVILLE, KY., June 20.—In an interview to-day with Rev. R. D. Biven as to the serious charges made against him by Mr. James Jacobs he gave out the following statement:

"The facts are these: Mr. James Jacobs came to my room and talked in an insulting and abusing manner. The first time he came was about one month ago. I took his insults the first time without resentment, but the second time it was more than the manhood of any gentleman could stand. I told Mr. Jacobs to leave the room, and upon his not going at once I kicked him down the steps and out of the house. I was then arrested on a warrant sworn out by Mr. Jacobs for breach of the peace, pleaded guilty and was fined \$5 and costs. I was also put under a peace bond of \$50 on account of a warrant sworn out by Jacobs.

"The trouble arose from some objection to me returning as pastor to this church at the beginning of the conference year, some eight months ago. Mr. Jacobs is a member of my congregation at Nicholasville, but is by no means a representative member. He is a very contentious man, and was in no way representing his church when he waited on me, but took the matter wholly in his own hands, without the consultation of a single member of my church. I belong to a family of courage as well as character, and at the insult given me by Mr. Jacobs I gave him a speedy exit from my room by the application of my foot to the lower extremities of his body.

"There is no rumor of other offenses committed by me behind this charge, and no committee has ever officially waited upon me, as stated in your issue of the 16th inst. The Church Board has not requested me to resign my charge, and the better class of my church and the citizens have exonerated me in my action with Mr. Jacobs."

Mr. Biven declined to state the nature of the insult which caused the trouble.

Mr. Biven is about forty-five years old.

His wife is now in the city, having arrived shortly after his trouble with Jacobs.

His wife is good looking and about thirty years of age, and is the second wife of Mr. Biven.

Rev. Mr. Biven assisted Rev. T. B. Stratton of Sedden M. E. Church in a protracted meeting last winter, and has many friends in this section who believe in his entire innocence of any wrong doing.

A LEWIS COUNTY CASE.

The Maysville and Big Sandy Railroad Must Pay Turnpike Tax as Fixed by the Commission.

FRANKFORT, KY., June 20.—The Court of Appeals yesterday reversed the case of the Vanceburg & Stout's Lane Turnpike Company vs. the Maysville & Big Sandy Railroad Company, of Lewis County. The action involves the payment of turnpike tax for 1891-6, as authorized by Acts of 1889-90, Chapter 1034.

The Court, as provided by the act, appointed two appraisers to fix the valuation. These appraisers fixed the valuation at \$20,000 a mile for seven miles.

The court below directed that the plaintiff must elect whether they would try by the appraisal or by the county assessment. This court reverses the case and directs that the assessment shall be made on valuation of the Railroad Commissioners' valuation, and that the railroad is liable for the tax.

DISHONEST METHODS.

Nearly 20,000 False and Illegal Weights, Measures, Scales Destroyed in Chicago in a Few Months.

[Exchange.]

Last December the City Council of Chicago passed an ordinance compelling people to be honest in their dealings, and a commission was appointed to detect and punish violators of the ordinance. Since that time the Official Tester reports that he has condemned and destroyed nearly 19,000 false and illegal weights, measures and scales. Many of these were made intentionally short. Milk bottles an ounce shy to the quart were in general use, and this item alone was costing the people \$1,500 a day in Chicago. Coal measures, grocers' measures and all kinds of baskets, butter moulds and other contrivances were

found to be designed to defraud the unwary. Detectives were sent out to watch coal deliverymen and they were caught selling coal intended for customers, and a regular traffic of this sort was broken up. Scales were furnished to consumers to weigh meat, ice and other supplies sent to them, and report all shortages. The ordinance has been of great benefit to the poor especially, as the rich who buy in whole barrels and other large quantities do not suffer so much from dishonest methods.

The writing of advertisements has grown to be one of the fine arts. It isn't everyone who possesses the ability to compose a good business announcement, but there is no doubt lots of talent that will be attracted by the offer of the Frank Owens Hardware Company, as set forth in their space elsewhere in this issue. Everybody is invited to submit as many ads in competition for the three nice prizes offered as they chose to write. Get enthusiastic and try your hand. If you don't capture first prize, you still have a good chance for second or third place.

The next regular meeting of the Mason County Medical Society will be held at Lower Blue Licks next Wednesday, the 26th inst. Morning session will begin at 10 o'clock. Drs. Browning and Ellis, of this city, will be the regular essayists. There will no doubt be a large attendance, as the doctors from both sides of the river in the surrounding counties have been invited and have promised to be on hand.

Noah Johnson, a bicycle rider, who ran down and killed Emory L. Burrows at Sciotoville recently, while scorching, was found guilty of manslaughter at his trial. The jury was out but twenty minutes. The only question at issue according to the charge of the court was negligence. The case was the first of the kind to be tried at Portsmouth and attracted much attention.

THE PURE FOOD LAW.

Prosecutions to Be Instituted at Several Points for Alleged Violations of the Measure.

According to information from Frankfort the State Auditor, acting under the provisions of the Pure Food law, has notified the City, County and Commonwealth attorneys at several points of violations of the measure, and has directed that steps be taken to enforce the law.

As stated by the BULLETIN Friday, City Attorney Wood has received official notice from the State authorities of alleged violations of the Pure Food law by five of the leading grocers of Maysville.

The samples of the alleged adulterated food sold were obtained by the State Tester, located at Lexington, on Dec. 15th, 1899, but what the articles were is not stated. The samples were all numbered and the result of the official test will have to be obtained before the cases can be tried. It will be necessary, no doubt, to show that the grocers knew that the goods were adulterated when they sold them. There is no doubt the merchants themselves are often imposed upon by the manufacturer.

PIANO RECITAL.

Closing Entertainment Last Evening by Pupils of Miss Emma Nolin.

The beautiful home of Mr. Dan Perrine was the scene of an enjoyable entertainment last evening, the occasion being the closing piano recital of Miss Emma Nolin's pupils for the term. Miss Nolin is a faithful and conscientious teacher who has been quietly working among Maysville's young and talented hopefuls for several years. That she has met with much success was proved by the manner in which her pupils acquitted themselves last evening. A few had received instruction for only a few months, but their work was remarkable for the ease and grace with which their several selections were rendered. The older pupils are to be commended for their touch and expression, which was particularly fine.

The surroundings of a lovely and cultured home, a profusion of flowers and the fresh young faces added much to the pleasure of all present. The following program was rendered:

1. Trio—"Paddy Carey"..... Misses Woodworth, Nolin and Clarke.
2. Solo—"Happy Peasant"..... Schuman, op. 68 Hazel Hewins.
3. Solo—"Twinkling Stars"..... Beaumont Lisle Collins.
4. Solo—Mignon, "Spanish Dance"..... AquaVella Miss Nellie Clarke.
5. Duet, "Cuckoo in the Woods".... Hiller, op. 82 Misses Collins and Hewins.
6. Solo—"Mother Hubbard Waltz".... H. Engleman Mary Swift.
7. Solo—"Merry-Go-Round"..... Goedelier Hazel Hewins.
8. Solo—"Morning Prayer at School"..... Morley Miss Woodworth.
9. Duet—"The Merry Round"..... Hiller Misses Mary Swift and Mamie Deiner.
10. Solo—"The Larks' Song"..... Ischoikowsky Miss Carrie Senteney.
11. Solo—"Bells of Society Waltzes"..... Starck Miss Nellie Clarke.
12. Our Parting Song..... D. N. Coast Nellie Clark, Lisle Collins, Mary Swift, Hazel Hewins, Mamie Deiner, May Mills, Bertha Jackson, Oscar Jackson, Carrie Senteney, Miss Woodworth.

River News.

At an open meeting of the Louisville Commercial Club resolutions were unanimously adopted calling upon Congress to make an appropriation large enough to keep the Ohio river and its tributaries navigable the whole year.

The Speedwell, in the hands of the builders at Point Pleasant, will come out soon, a new boat—new boilers, pipes and chimneys, cylinders rebored and refitted, new hull, twenty feet longer than the original. Her engines are twelve and one-half inches diameter by six feet stroke, so she bids fair to be one of the fastest. It is said she is billed for Marietta and Charleston two trips a week.

Louisville Post: "The steamer Little Clyde is lying at the wharf, with her owner, Captain A. B. French, and wife, on board. She is just off the Madison Ways, and is as good as a new boat. Captain French, the owner, is the floating showman. Thursday Captain French purchased 1,000 opera chairs from the Polytechnic Society, with which he will supply the "New Sensation," now being completed at Higginsport, exclusively for show purposes, to be towed from point to point by the Little Clyde."

Nineteenth Century and Meteorites.

Among the great scientific advances of the century just passed there is one which is seldom mentioned, although it is of remarkable interest. It is the demonstration of the fact that stones and metallic masses fall from the sky. Dr. O. C. Farrington reminds us that up to the beginning of the nineteenth century the attitude of scientific men toward the accounts of stone reported to have fallen from the sky was in general "one of scorn and incredulity." He quotes a remark of President Jefferson when told that Profs. Silliman and Kingsley had described a shower of stones at Weston, Conn., in 1807: "It is easier to

believe two Yankee professors will lie than to believe that stones will fall from heaven." It was only after a great shower of meteoric stones at Laigle, in France, in 1803 had been carefully investigated by the French academy that men of science finally became convinced that such things really occurred.—Science.
